Issues to be addressed

Session 1 « EASSH Organisational and Administrative Issues »

- How can we best increase the number of member associations?
- When should we organise the call for membership for individual higher education and research association?
- How should we best organise the governing structure?
- What procedure for adopting EASSH strategies and validating EASSH positions?

Session 2 « EASSH Strategies and Policies »

- How can EASSH become a major stakeholder recognised as such by the European institutions?
- What is EASSH position regarding the implementation of H2020? What are our specific recommendations on the embedding strategy and any other issues in H2020?
- How can we best contribute to the Mid Term Evaluation of H2020?
- What are EASSH prospective vision and proposals for increasing SSH support in higher education and research in Europe? How to play an efficient role into the European multilevel governance?

Session 3 « Contents and Scientific Issues »

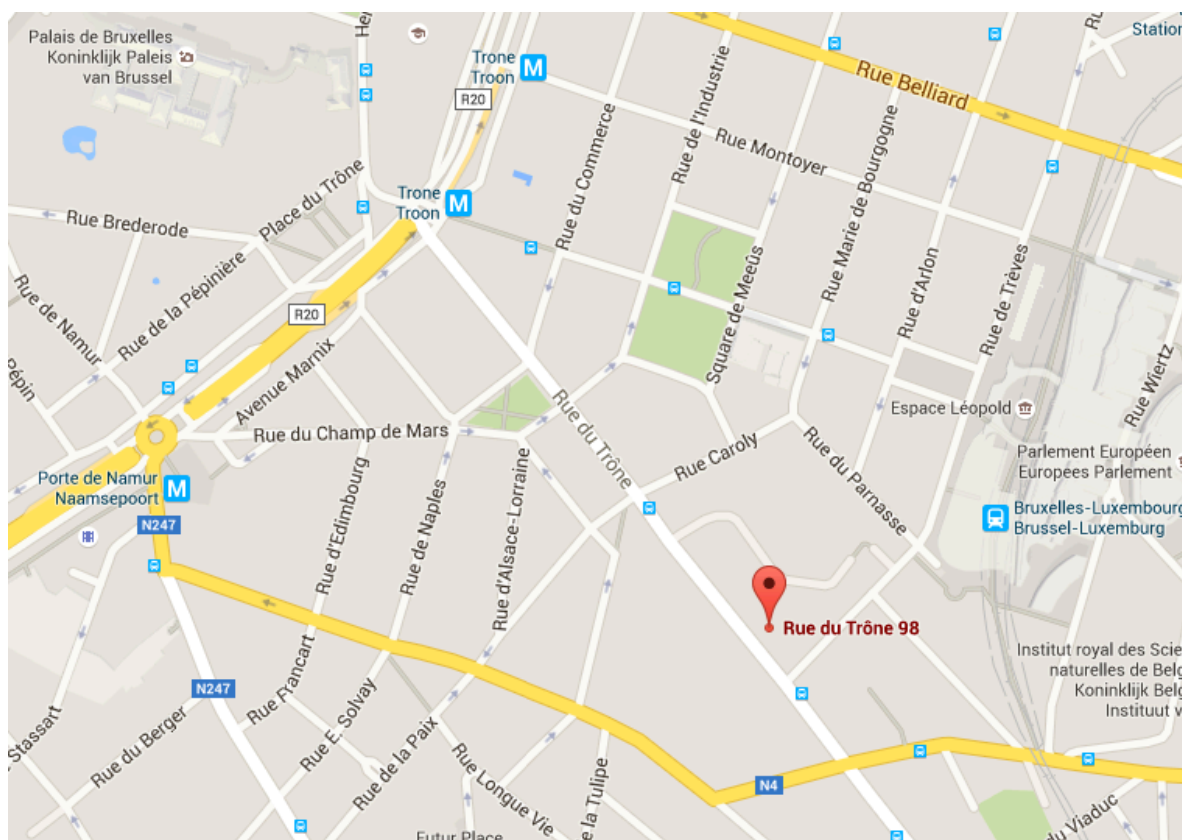

- What are the challenges for Europe that SSH can contribute to?
- What has SSH to offer for these challenges?
- What are most convincing contributions of SSH?
- What new research approaches (SSH or interdisciplinary with solid SSH input) are needed to cope with these challenges or need to be studied?

Session 4 « Impact and Outreach »

- What are the challenges in translating SSH research into impactful findings, indicators and narratives? What support mechanisms may be identified for SSH translational SSH?
- What can we learn from successful examples of translational practices?
- What is the current status of research into SSH impact and outreach?
- What can we do to promote the use of meaningful measures of SSH impact and outreach?
